

BAKER STREET BEHAVIORAL HEALTH

*Now Offering Occupational Therapy!
Baker Street Occupational Therapists
Provide Individualized Therapy, Designed to
Help Reduce Barriers, Improve Skills, and
Promote Success in Everyday Lives.*

Now Accepting New Patients!

As a multi-discipline, and multi-location mental health practice, we pride ourselves as a valued and trusted partner for organizations, offering concierge and individual mental health services in person or via telehealth, as needed.

Along with our offices in NJ, we provide telehealth and virtual sessions to patients across the USA.

NOW OFFERING OCCUPATIONAL THERAPY SERVICES

What is Occupational Therapy?

Occupational therapy is a form of therapy for individuals with physical or mental illness, developmental disabilities, neurodiversity challenges, Autism, and/or ADHD. It encourages independence through the performance of activities required in daily life. Baker Street "OTs" help clients with physical, cognitive, and/or sensory difficulties to be successful in their daily activities.

Baker Street OTs Can Help With:

- Handwriting
- Social skills
- Emotional regulation skills
- Fine motor skills
- Gross motor skills: balance, coordination, crawling, walking
- Sensory difficulties
- Feeding difficulties
- And much, much more!
