**14 Free Resources for LGBTQIA+ Youth in New Jersey**

*From healthcare to housing, a variety of resources are available to help LGBTQIA+ youth facing unique challenges*

**TRENTON, N.J.** – In honor of Pride Month and in acknowledgment of the unique challenges young people who are part of the LGBTQIA+ community face, the NJ Department of Children and Families today highlighted a list of helpful resources available to LGBTQIA+ youth in New Jersey.

New Jersey has long distinguished itself as a welcoming state for people in the LGBTQIA+ community. Earlier this year, Governor Phil Murphy signed an order to make the State a safe haven for individuals seeking gender-affirming healthcare services, and since 2019, residents have been permitted to amend their birth certificates to reflect their gender identity.

Over the past two years, many states have adopted new laws that strip away the rights of non-binary and trans youth. While New Jersey offers legal protections for our LGBTQIA+ youth, some young people can face challenges accessing the mental and physical healthcare, housing, and other assistance they need if they do not have access to a dependable support system. This is especially true for youth of color.

A recent CDC study found that almost half of LGBQ+* students seriously considered attempting suicide, and nearly 3 in 4 reported persistent feelings of sadness or hopelessness. Data also shows that youth who are also members of another minority group experienced an even higher risk of suicide.

“These teens are often facing incredible familial or societal pressures, creating circumstances that can quickly become overwhelming,” DCF Commissioner Christine Norbut Beyer said. “The sad reality is that some teens and young adults are forced to leave home when they ‘come out,’ putting them at risk of sex trafficking, exploitation, addiction, and homelessness. LGBTQIA-friendly group homes, shelters and emergency services are vital resources for this often-vulnerable population.”

There are many organizations, initiatives, and hotlines in New Jersey that offer quality support to LGBTQIA+ individuals. While the following list is not comprehensive, DCF has compiled a list of several of these resources to serve as a starting place for LGBTQIA+ youth who are looking for help.
