INTENSIVE IN-COMMUNITY SERVICES (IIC)

An intervention program for youth with behavioral and emotional challenges and their families

Intensive In-Community Services Description

Family and Children's Services' IIC is a goal-oriented, needs-based clinical intervention that addresses emotional and behavioral challenges of youth and their families. Typically provided in the family home, the therapy is designed to successfully maintain the youth in the home and community.

We use a family-centered, trauma-informed approach to therapy. Our licensed clinicians each complete training in at least one evidence-based treatment, and approach every child and family with a strengths-based, culturally-competent, empathic perspective.

FACS clinicians have experience in Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), TARGET (Trauma Affect Regulation Guide to Education and Therapy), ARC (Attachment, Regulation and Competency), the Nurtured Heart Approach, Motivational Interviewing, and other techniques.

Our History

Founded in 1893, Family and Children's Services began as the Charity Organization Society. It was joined in 1898 by the Elizabeth Society for the Prevention of Cruelty to Children.

Our commitment to these two organizations continues today, as we continue to provide a wide array of innovative and professional quality child welfare, mental health and family services to children, youth and adults of all ages in Union County and surrounding area.

Our Mission:

**BUILDING
HOPE AND
HEALING
TRAUMA**

**to strengthen
families and
communities.**
